

WE ARE.
**Growing
Together**

Our Aims

To guide the UK's community growing groups towards a financially sustainable future.

To develop and promote bright ideas that will enable grass roots groups move to a balanced income model

To work with Government and the business sector to unlock land, skills and money that will help community growers to thrive.

That all community growing groups in the UK have the skills, knowledge and opportunity they need to create a financially sustainable future.

Areas of Focus
